## SUMMARY

To secure a dynamic role in the field of web development and UI design, where I can apply my skills in front-end technologies, programming, and visual design to build responsive, user-centric digital experiences. I aim to contribute to innovative projects while continuously learning and evolving as a full-fledged developer and designer.

---

## EXPERIENCE

### FullStack Developer Intern

CloudSwan Solution

2025

- Assisted in developing full-stack web applications using HTML, CSS, JavaScript, PHP, and MySQL.
  - Built responsive UI components and integrated back-end logic.
  - Collaborated with cross-functional teams and used Git for version control.
- 

## PROJECT

### Portfolio Website

- Developed a personal portfolio website to showcase my skills, projects, and contact information in a clean and professional layout.
- Implemented responsive design techniques to ensure optimal viewing across various devices.
- Enhanced interactivity using JavaScript and jQuery for a smooth user experience.

### Class Management Website

- Designed and developed a web application for an educational institute to efficiently manage class schedules, student information, and fee records.
- The system helped streamline daily operations, reduced manual work, and improved data tracking and accuracy across departments.

### Student Result Management System

- Final year project developed to automate the result processing system for students.
  - The system featured student record management, subject-wise marks entry, and automated grade calculation.
  - It streamlined the result generation process, reduced manual errors, and improved overall efficiency in academic record keeping.
-
